

Intro to Ag

DO

Respect the teacher, each other, the facilities, and the learning environment

Be on time and be prepared

Be willing to learn and participate. Be productive during every class

Ask questions

DON'T

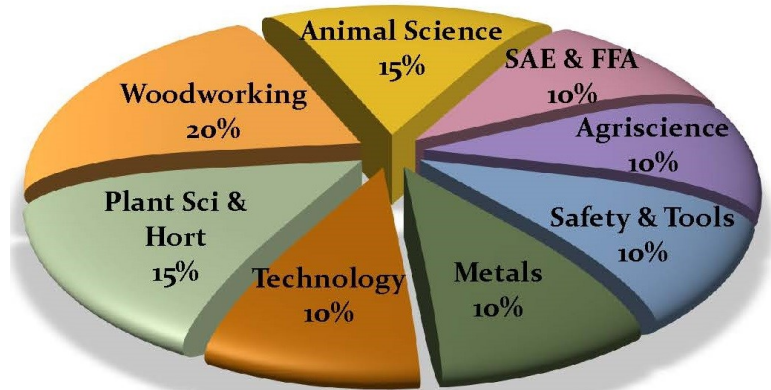

Wait until last minute to get help on a unit.

Disrupt the learning environment

This course is an introductory course designed to expose students to different facets of FFA and the agriculture industry. Students will gain knowledge in animal science, plant science, leadership skills, public speaking, FFA opportunities, and agricultural mechanics. Instruction and student learning will occur through lectures, student projects, group discussions, hands on experiences, FFA experiences, CDE participation, and their SAE program.

What We'll Do

Grading: Grades will be entered weekly and will consist of some homework and quizzes, tests, projects, and a daily participation grade when working on projects. This class is designed to be very hands on, therefore, the majority of points will come from daily participation and projects.

- **FFA Opportunities:**
- All students enrolled in Intro to Ag will be FFA members as we are an affiliate chapter.
- Students dictate how active they are in the Chapter
